

Lysine Sulphate 70%

General Information

Chemical Formula	$(C_6H_{14}N_2O_2)_2H_2SO_4$	
Synonym	L-Lysine Sulphate 70 %	
Origin	China	
H.S. Code	29224100	
CAS No.	60343-69-3	
Molecular Weight	390.4 g mol ⁻¹	

Application and Benefit

Application	Benefit
Poultry, Swine, aqua	Improvement amino acid balance
	Sparing effect of the crude protein content
	Replacement of animal proteins by vegetable proteins
	Fortification of nutrition for pregnancy and lactation
	Promotor growth animals and improve meat quality

Specification

Property	Value
L-lysine Content (Dried basis)	55% Min
Other Amino Acid	≥10 % Min
Loss On Drying	≤4.0% Max
Burn Residue	≤4.0%
Ammonium Salt(as Nh4+)	≤1.0% Max
Lead (Pb)	≤0.002
Passing rate of 2000µm analytical sieve	≥90 %
Arsenic	≤0.0002%
pH	3.0-6.0

Packaging

- Bags @ 25 kg 17 MT/20' FCL without pallet
